SOFTWARE

MY APPROACH TO ANIMATIONS

- Pay attention to the **Animatic** and **Production materials** before starting.
- Figure out what the shot is about, planning and observing everything I need for.
- Ask! Ask! Ask! Always looking for Supervision.
- Push to the **most Appealing pose**. Use Rig or Drawing Model consistently: **the Nicest the look, the better!**
- Add extra on my own (where needed).
- **Listen carefully!** Improve the shot after feedback is received.
- Put all my knowledge and Animation principles application on the shot.
- Enjoying the process and having fun!
