EUGENIO CORSINI

I worked for seven year as a Sales Department Manager in a electronic store, then in 2014 I moved to Florence, where I attended the Directing and Screenplay course at the film school "Immagina". I started to work on film sets as a Data Manager and Editor Assistant; then as a Line Producer and Assistant Director on movies and tv series for Italian and international companies. In 2019, I co-founded Materiali Sonori Cinema, an independent production and distribution that produces short films and documentaries.
In 2020, I attended to Marco Bellocchio's Foundation Film Production course, held by the renowned Italian producer Gianluca Arcopinto. In 2021, I was Art Director and Event Planner of the festival "Sentiero Film Factory" dedicated to the short films industry. From November 2021, I started teaching "Production and Organization" at the Accademia Cinema Toscana in Lucca.
