about me

Born and raised by the sea, and visual arts enthusiast since I could hold a crayon.

After graduating in Animation in 2017 I lived in the Netherlands, where I started occasionally taking gigs as an illustrator, which I still do nowadays in my spare time.

In 2021 I started my animation career working with Doghead Animation in Pisa, perfecting my skills on Toon Boom Harmony and collaborating on international productions.

My dream is to someday draw my own comic.
